Roi Maynar Nieto

VFX & CFX Artist / 3D Animator / Graphic Designer

I have always been passionate about movement and visual storytelling. I specialize in CFX, VFX and 3D animation, with a strong interest in node-based workflows, particularly in Houdini, Blender, and Nuke.

I have worked as a graphic designer and am currently pursuing a degree in Animation and VFX.

EXPERIENCE

3D GENERALIST / GRAPHIC DESIGNER
(Sexteto Sempronio music band)
March 2026 - May 2026

Designed the poster for the May 2026 concert in Nigrán, Galicia. Created a destruction simulation of 3 Greek temples in Houdini, then developed a scene in Blender with 6 roman busts to create the bands visual identity.

COLORIST / INKER
(Adoquín Magazine)
July 2025 - August 2025

Ink and color artist for the "Alba Lunar" story, featured in the 2025 issue.

GRAPHIC DESIGNER / ILLUSTRATOR
(Small World Stories, Communications for Social Change)
January 2025 - May 2025

Developed 4 infographics and several instagram posts focused on climate change buzzwords, translating complex concepts into clear and accessible visual content for the Climate Communications Resource Hub.

MURALIST
(Mural Painting, Red Natura 2000)
August 2024

Two-wall outdoor mural inspired by the fauna and flora of Cabo Udra, Galicia (a protected natural area and part of the Red Natura 2000).

AWARDS

BEST PROJECT / ARTS & ANIMATION FEST
(Game Design)
June 2024 and June 2023

Twice awarded First Prize for University's Best Final Project of the Year: for the creation of an interactive electronic interactive game (2024) and a physical board game (2023).

1ST PRIZE - DEUTERONOISE PROJECT
(Graphic Design)
April 2023

Won the logo design competition for the Deuteroinse project, a research project investigating the environmental impact of ships noise on benthic marine fauna.
